

Finding the North Node from 1921 to 2046

Created by [Cayelin K Castell](#) © 2015 and 2020

On the table below locate the year of your birth within the date ranges given to find out what sign your North Node was in when you were born. The next Nodal cycle tells you when the next Nodal Return window is happening for you. Looking at the opposite sign lets you know the next Nodal Reversal.

The Nodal Cycles occur about every 18.6 years and are important generational cycles intended to further activate your personal life purpose.

Note: The Nodes move backward through the Signs. These tables start with the North Node in Capricorn and move backward to Aquarius.
