

The Sacred Hoop of Stars AND The Prophecies For Unity and Peace

with Cayelin K Castell

The Whirling Rainbow prophecy is the promise that all the races and religions join together living in harmony with each other and with all creation restoring the Sacred Hoop. Those who embody and teach this are the Rainbow Warriors, restoring balance through the power of love and doing no harm. When all pathways to wholeness are respected by all cultures, the prophecy of the Whirling Rainbow is complete.

Whirling Rainbow, giver of life
Through your cleansing rains.
Uniting all colors, the children of the earth
will walk in peace again,

Whirling Rainbow prophesy
Your warriors now arise,
Sisters and Brothers in harmony,
Your light in their eyes.

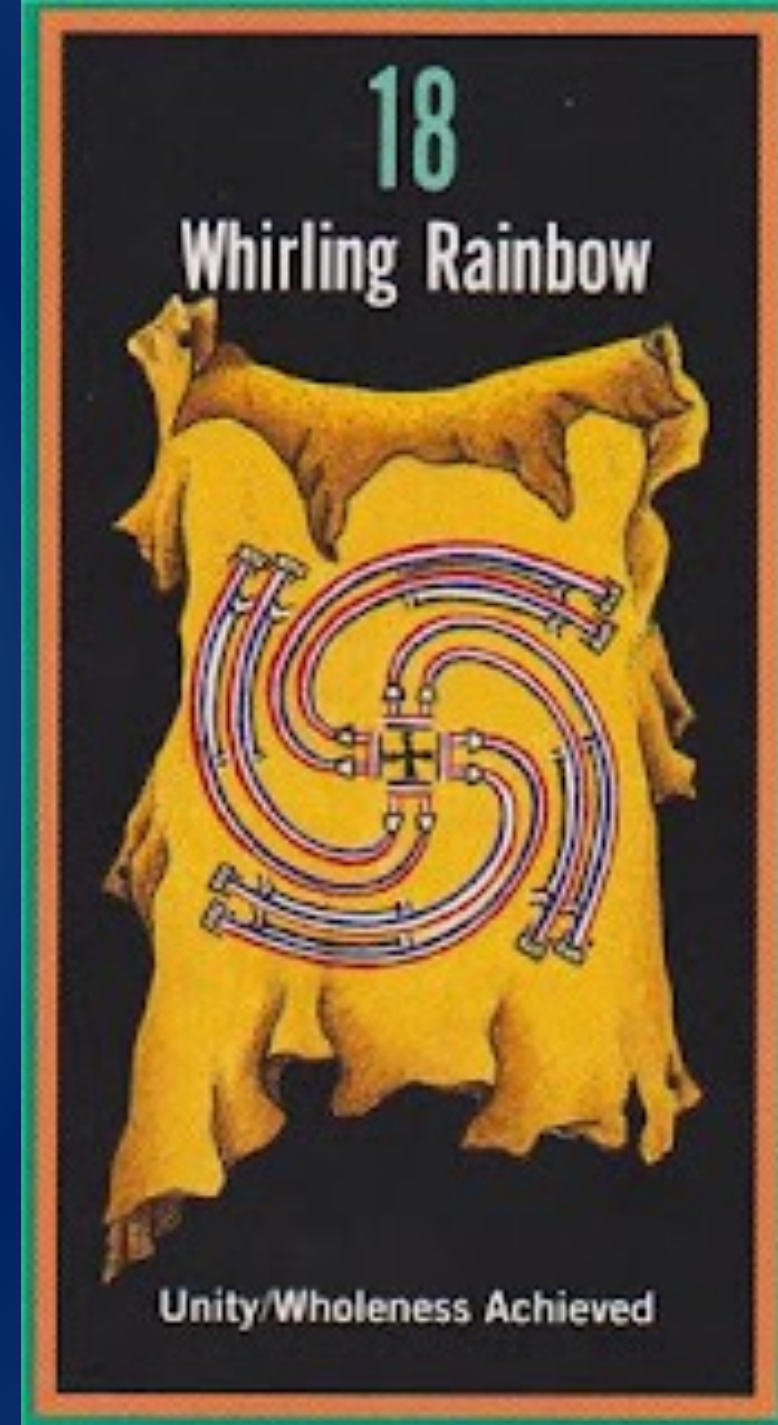

Whirling Rainbow,
Touch our hearts,
We will surely fly,
Never lonely or apart,
Our whirling colors in the sky.

The Sacred Hoop of Stars represents the unending circle of life, time, and spirit, and its circular shape is echoed in many aspects of Lakota culture, from the tipi to the medicine wheel.

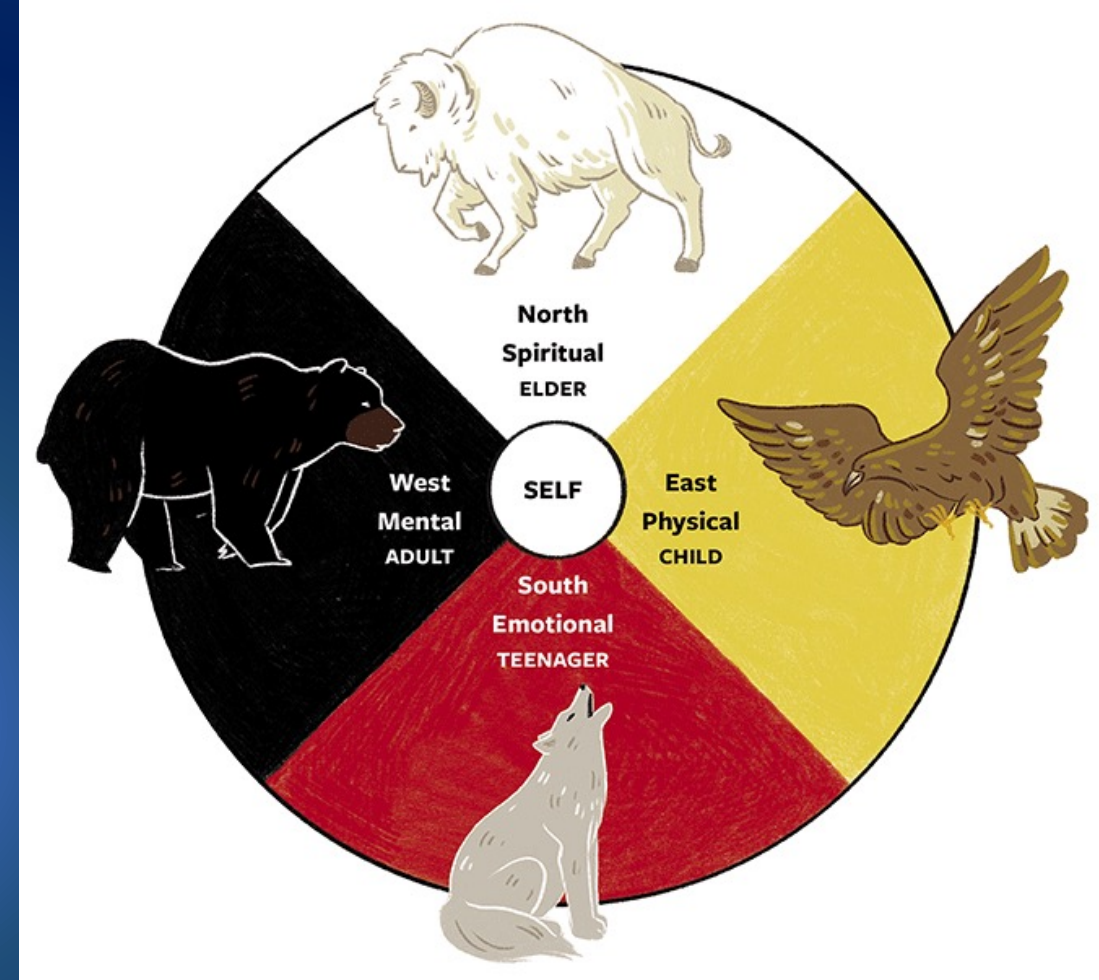

In Native American traditions, the "Sacred Hoop" represents the interconnectedness of all life and the universe.

"Star prophecy" interweaves this concept with celestial maps and traditional visions.

Lakota and Hopi Cosmologies foretell of a time when all life on Earth will experience a spiritual renewal.

The Dakota/Lakota Star Knowledge & The Sacred Hoop is both a map of the universe and a reflection of the earthly landscape

Representing the unending circle of time, space, matter, and spirit, mirrored on Earth by the red clay valley surrounding the Black Hills in South Dakota.

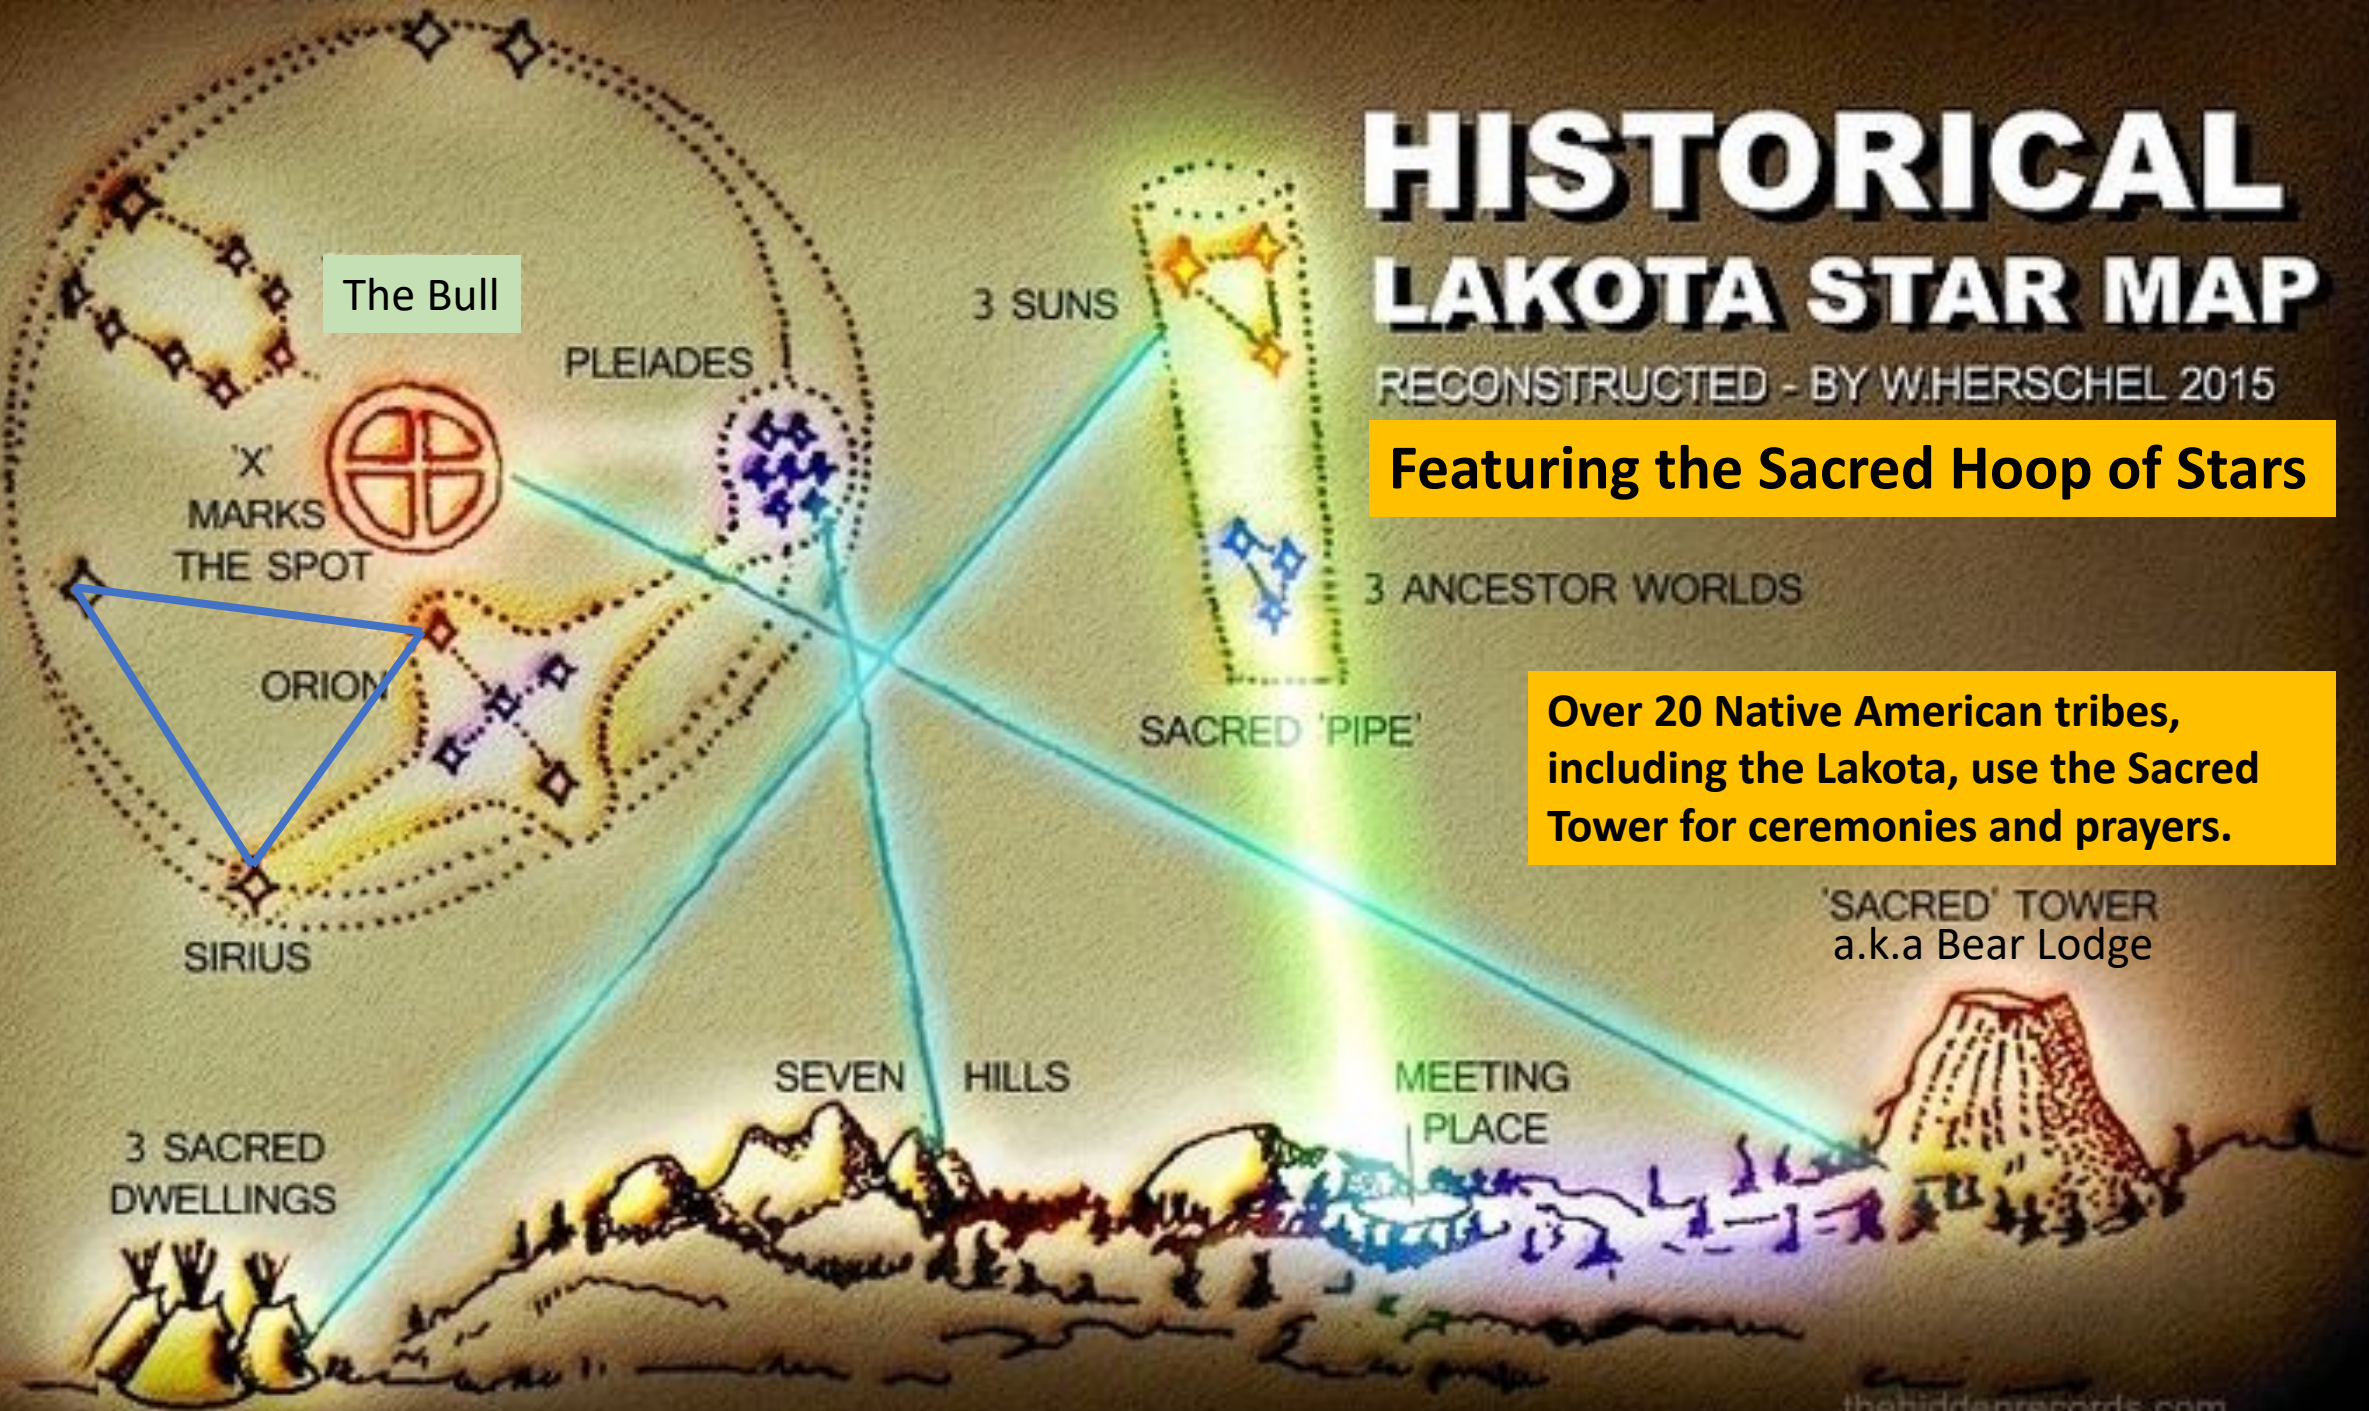

Within the Sacred Hoop, star patterns like the *Tayamni* (the Buffalo) help determine the changing of seasons and the timing of ceremonial migrations.

Gateway of Our Ancestral Origins

Sirius, Procyon and Betelgeuse form a nearly equilateral triangle or portal to the Ancestors.

Our first clue was Sirius (14° Cancer 26'), the brightest star in the sky, is located near the point where our Solar System is traveling away from.

The star Vega (15° Capricorn 42') in the Summer Triangle also along the Milky Way is where our Solar System is traveling toward.

The Milky Way or the *Road of Spirits* passes directly through this stellar triangle marking the path to the Ancestor Worlds creating a bridge that leads to the "Place of Spirits" located near the Galactic Cross at the Galactic Edge and the pathway beyond our Galaxy.

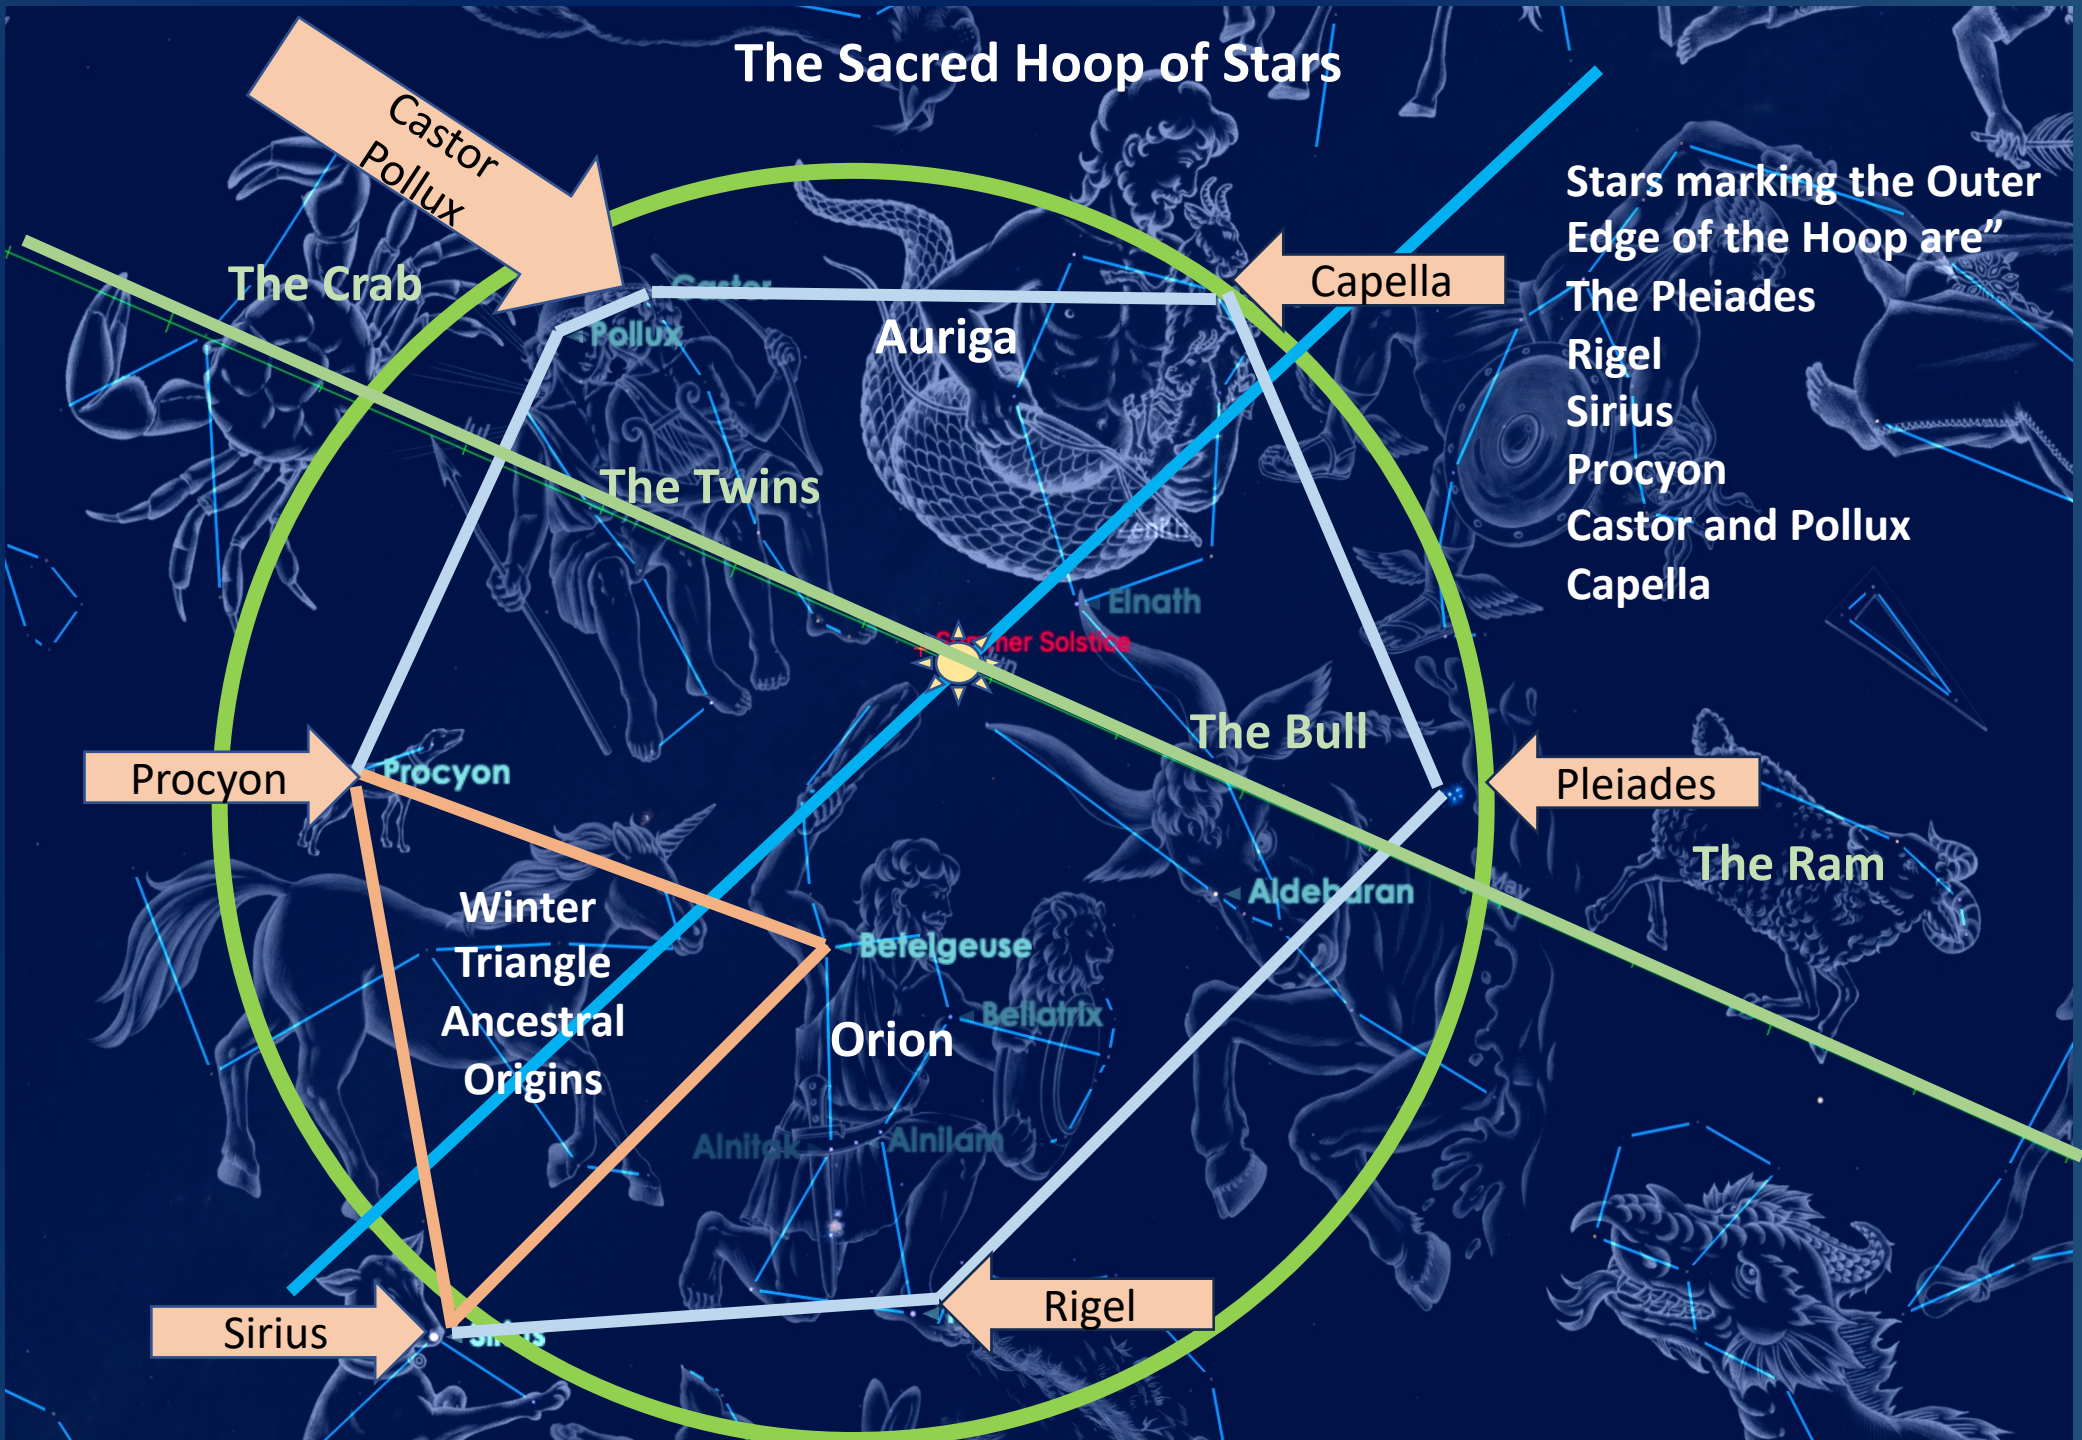

Best visibility in the evening sky is in the Winter Months January to March about 7 to 9 pm directly overhead.

The Sacred Hoop begins to disappear as it sets earlier each night in May.

Sirius and much of the Sacred Hoop are not visible in June and July.

Sirius begins rising into the morning sky in August when the Sacred Hoop is again visible in the morning sky.

The Sacred Hoop of Stars

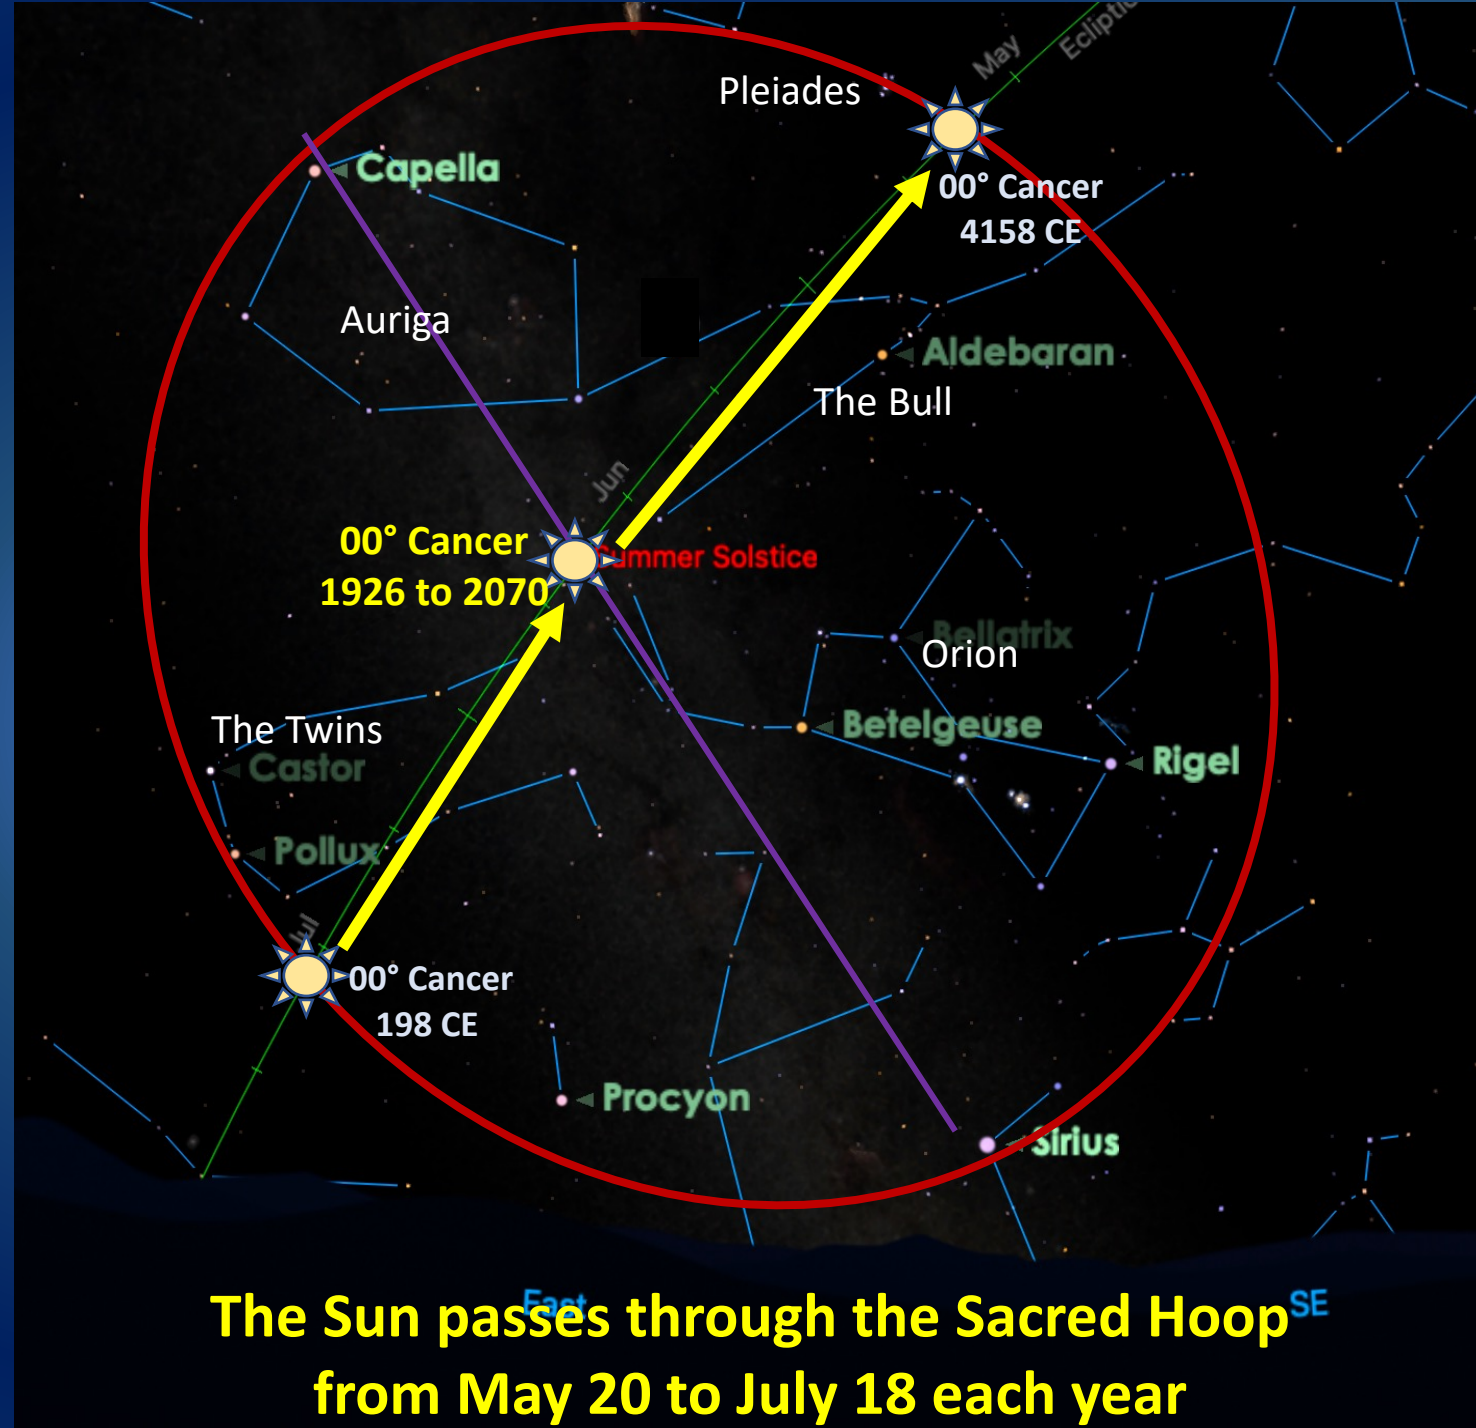

The Lakota felt it was auspicious and worth noting when any visible planets were passing through the Sacred Hoop.

The June Solstice has been rising in the Sacred Hoop of Stars for the last 1800 years since 198 AD/CE when the Solstice Sun was aligned with Procyon.

The June Solstice is now rising on the exact Cross of the Plane of the Milky Way and the Plane of the Galaxy at the edge of our Galaxy.

This represents the slow shift backward through the constellations that occurs over time. This shift is 1° every 72 years.

White Buffalo Calf Woman Prophecy Black Elk Prophecy and The Sacred Hoop

White Buffalo Calf Woman gave the Lakota the gift of knowledge about the Sacred Hoop. She taught them seven sacred ways to pray. And she promised one day she would return as a white buffalo calf to restore harmony, rebalance nature, and herald a time of purification when humanity is plagued by greed and environmental destruction.

This is a one in 10 million likelihood...so when a White Buffalo Calf is born, it is a sign prayers are being heard & the promises of the prophecy are beginning to be fulfilled.

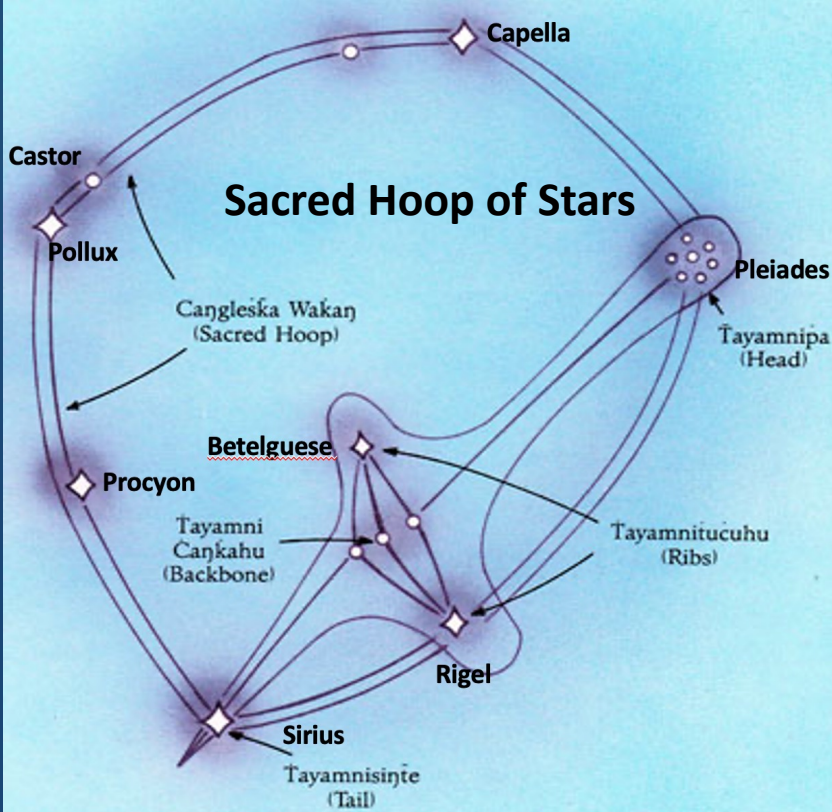

In 1933 the first known white buffalo calf was born when there were less than 500 buffalo in the world. 61 years later in 1994 Miracle was born.

Today there are about 50 White Buffalo out of an estimated 500,000 buffalo or less than 0.01%

April 25, 2024 or 2025??? another white buffalo calf was born in St Francis, Kansas and on **June 4, 2024** in Yellowstone National Park's a White Buffalo Calf was born named Wakan Gli a Lakota name meaning "Return Sacred".

Ronald Goodman

“And I saw that the sacred hoop of my people was one of many hoops that make one circle, wide as daylight and as starlight, and in the center grew one mighty flowering tree to shelter all the children of one mother and one father. And I saw that it was holy.”

JOHN G. NEIHARDT
BLACK ELK SPEAKS
THE COMPLETE EDITION

Black Elk shared a vision he had at the age nine during a near death experience. Later he interpreted the vision as a prophecy regarding the suffering of his people and all humanity. His vision included the Sacred Hoop bringing all nations, all people back into harmony with each other and it would take 7 generations from the massacre at Wounded Knee on Dec 29, 1890 or around the year 2030 when using 20 years for a generation. If using 30 years for a generation it would be 2100.

7 Generations Later 2030/2032

Uranus re-entered in 2026 and leaves in 2039 passing through for about 13 years. Saturn enters the Sacred Hoop in May 2030 and leaves July 2034.

Saturn meets with Uranus June 28, 2032

at 28° Gemini within 2° of the Galactic Cross at the Galactic Edge.

Saturn and Uranus meet about every 45 years.

The last time was Oct 18, 1988 at 28° Sagittarius
Next time will be on Feb 26, 2079 at 29° Capricorn

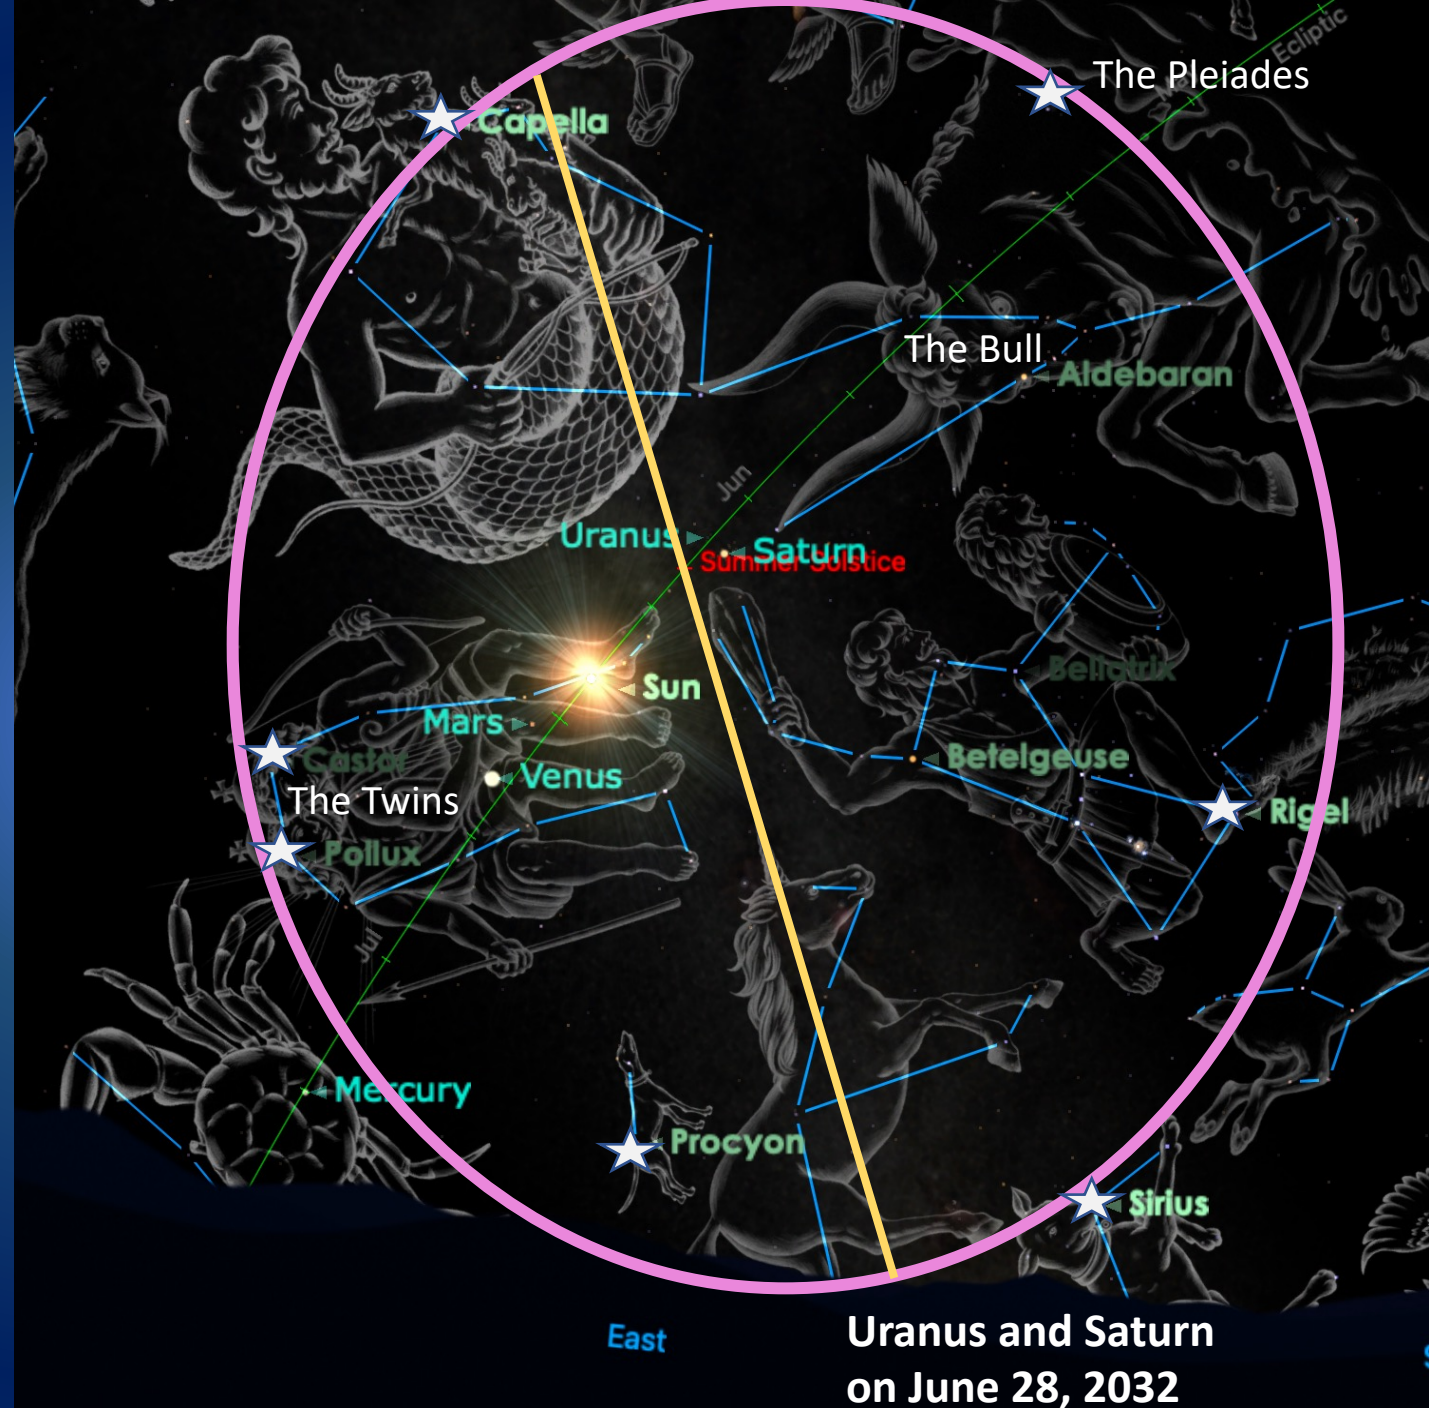

This alignment near the center of the Sacred Hoop is very rare...

Saturn enters 0° Cancer on July 13, 2032

Uranus enters 0° Cancer on August 03, 2032

Uranus breaks down what isn't working to breakthrough to a whole new way of being.

Saturn, as wisdom keeper, inspires the construction of healthy sustainable structures that will last at least 7 generations.

PAGE BRYANT

Our ancestors made use of the “power” inherent within individual stars, the esoteric knowledge of the constellations, the secrets of celestial computations and of cosmic order.

The cultures who possessed that vast body of wisdom in its entirety were able to answer vital questions about the nature of the universe and make giant leaps in evolution.

*They taught that all life is sacred and that all is alive, every star, every planet, every tree, every stone...everything. **That knowledge gave them a technology that still puzzles us today.***
